CONTENTS OF VOLUME 413

June 1989

KASS Ira S. & LIPTON Peter Protection of hippocampal slices from young rats against anoxic transmission damage is due to better maintenance of ATP. 1

DE GROAT William C. & KAWATANI Masahito Enkephalinergic inhibition in parasympathetic ganglia of the urinary bladder of the cat. 13

DAVIES N.W., SPRUCE A.E., STANDEN N.B. & STANFIELD P.R. Multiple blocking mechanisms of ATP-sensitive potassium channels of frog skeletal muscle by tetraethylammonium ions. 31

HUME J.R. & LEBLANC N. Macroscopic K^+ currents in single smooth muscle cells of the rabbit portal vein. 49

BYERLY Lou & SUEN Yu Characterization of proton currents in neurones of the snail, *Lymnaea stagnalis*. 75

HABARA Yoshiaki Augmentation of secretagogue-induced amylase secretion in pancreatic acini of heat-exposed rats. 91

NOBLE R. & SHORT A.D. Spatial spread of in-field afferent inhibition in the cat's spinocervical tract. 107

BROWN A.G., MAXWELL D.J. & SHORT A.D. Receptive fields and in-field afferent inhibition of neurones in the cat's lateral cervical nucleus. 119

MATSUDA Hiroko, MATSUURA Hiroshi & NOMA Akinori Triple-barrel structure of inwardly rectifying K^+ channels revealed by Cs^+ and Rb^+ block in guinea-pig heart cells. 139

CURTIN N.A. & EDMAN K.A.P. Effects of fatigue and reduced intracellular pH on segment dynamics in 'isometric' relaxation of frog muscle fibres. 159

KATZKA D.A. & MORAD M. Properties of calcium channels in guinea-pig gastric myocytes. 175

COSTA P.F., EMILIO M.G., FERNANDES P.L., GIL FERREIRA H. & GIL FERREIRA K. Determination of ionic permeability coefficients of the plasma membrane of *Xenopus laevis* oocytes under voltage clamp. 199

ADAMS L., DATTA A.K. & GUZ A. Synchronization of motor unit firing during different respiratory and postural tasks in human sternocleidomastoid muscle. 213

KERNELL D. & ZWAAGSTRA B. Size and remoteness: two relatively independent parameters of dendrites, as studied for spinal motoneurones of the cat. 233

KERNELL D. & ZWAAGSTRA B. Dendrites of cat's spinal motoneurones: relationship between stem diameter and predicted input conductance. 255

DOLPHIN A.C. & SCOTT R.H. Interaction between calcium channel ligands and guanine nucleotides in cultured rat sensory and sympathetic neurones. 271

COATS A.J.S., CONWAY J., ISEA J.E., PANNARALE G., SLEIGHT P. & SOMERS V.K. Systemic and forearm vascular resistance changes after upright bicycle exercise in man. 289

DRINKHILL M.J. & MARY D.A.S.G. The effect of stimulation of the atrial receptors on plasma cortisol level in the dog. 299

PAULAIS Marc & TEULON Jacques A cation channel in the thick ascending limb of Henle's loop of the mouse kidney: inhibition by adenine nucleotides. 315

LEDERER W.J., NICHOLS C.G. & SMITH G.L. The mechanism of early contractile failure of isolated rat ventricular myocytes subjected to complete metabolic inhibition. 329

LEMON R.N. & MANTEL G.W.H. The influence of changes in discharge frequency of corticospinal neurones on hand muscles in the monkey. 351

DAUT J. & ELZINGA G. Substrate dependence of energy metabolism in isolated guinea-pig cardiac muscle: a microcalorimetric study. 379

DEUTSCH Carol & LEE Sherwin C. Modulation of K^+ currents in human lymphocytes by pH. 399

GREGORY P.C. & MILLER S.J. Influence of duodenal digesta composition on abomasal outflow, motility and small intestinal transit time in sheep. 415

MITCHELL J.H., REEVES JR D.R., ROGERS H.B., SECHER N.H. & VICTOR R.G. Autonomic blockade and cardiovascular responses to static exercise in partially curarized man. 433

BISCOE T.J. & DUCHEN M.R. Electrophysiological responses of dissociated type I cells of the rabbit carotid body to cyanide. 447

BROWN D.A., MARRION N.V. & SMART T.G. On the transduction mechanism for muscarine-induced inhibition of M-current in cultured rat sympathetic neurones. 469

HIMPENS B., MATTHIJS G. & SOMLYO A.P. Desensitization to cytoplasmic Ca^{2+} and Ca^{2+} sensitivities of guinea-pig ileum and rabbit pulmonary artery smooth muscle. 489

BYWATER R.A.R., SMALL R.C. & TAYLOR G.S. Neurogenic slow depolarizations and rapid oscillations in the membrane potential of circular muscle of mouse colon. 505

ERDMANN Rita & LÜTTGAU H.CH. The effect of the phenylalkylamine D888 (devapamil) on force and Ca^{2+} current in isolated frog skeletal muscle fibres. 521

CRUNELLI Vincenzo, LIGHTOWLER Sean & POLLARD Christopher E. A T-type Ca^{2+} current underlies low-threshold Ca^{2+} potentials in cells of the cat and rat lateral geniculate nucleus. 543

LEE J. & STROMEYER III C.F. Contribution of human short-wave cones to luminance and motion detection. 563

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

5–6 *January* 1989

St Mary's, London Meeting

DEMONSTRATIONS

Luther P.K., Michel C.C., Ryan U.S. & Squire J. Investigation of the surfaces of cultured endothelial cells for regular arrays of molecules using diffraction analysis of electron micrographs. 2*P*
